```typescript
function processOrders(orders: readonly Order[])
{

    orders.push({...}) // Error
    orders.pop() // Error
    orders.reverse() // Error

}
```

```typescript
function processOrders(orders: readonly Order[])
{

  orders.push({...}) // Error
  orders.pop() // Error
  orders.reverse() // Error

}
```

```
function processOrders(order: readonly Order) {
```
