```typescript
function processOrder(order: Order, options: OrderOptions): string | ProcessedOrder | OrderAction
function processOrder(order: Order, options: OrderOptions) {
```

```
function processOrder(order: Order, options: OrderOptions): string | ProcessedOrder | OrderAction

function processOrder(order: Order, options: OrderOptions) {
```

```typescript
type OrderResult =
  ProcessedOrder |
  OrderAction |
  string;

function processOrder
  ( order: Order,
    options: OrderOptions): OrderResult {
```
